Pro Preset Torque Screwdrivers
Torque range from 0.05 to 13.5 N.m

The Redefined Preset Torque Screwdriver range has been designed to complement our traditional accuracy, durability and quality with the benefits of a moulded plastic body and enhanced ergonomic design.

The models in this range include: ESD, Prime and Pro. Technical details of all models are given on pages 25-27.

Additional features
- Calibration stickers can be easily applied to the purpose designed nose
- The ¼” female hexagon Pro range proves versatile with a quick conversion to male square ¼” drive by using a convertor (Order Code: 029200)
- For more information on EPA compliant versions. See page 25

The Redefined Preset Torque Screwdriver range
- Absolute accuracy and consistency. Accurate process control is ensured by eliminating under and over tightening due to the proven slipping mechanism
- Ease of use. Tools can be used by operators at any skill level, due to unique slipping mechanism
- Improved production quality. Accurate torque application reduces the likelihood of warranty and rework
- Increased production efficiency. Dual formed moulded ergonomic handgrip is more suited to certain production techniques and provides comfort and grip to user. The smooth tool reset action increases production efficiency by reducing operator fatigue
- Long tool life. High quality, robust construction. Many years of dependable service are provided by the robust design, especially if regularly calibrated

Operational versatility. These versatile tools are ideal for a wide range of applications, with wide torque range and one way slipping action option.

To allow for customisation and clear identification interchangeable coloured end caps are available in packs of four (Order Code: 065800)

Comprehensive range of Accessories, Bits and Blades. See pages 88-89
Pro Screwdrivers can be customised to your exacting requirements. See page 83
Tool presetting service. See page 98

Pro Preset Torque Screwdrivers
Torque range from 0.05 to 13.5 N.m

Versatile Preset Torque Application Screwdrivers for any manufacturing environment

These tools complement our traditional accuracy, durability and quality with the benefits of a moulded plastic body and enhanced ergonomic design.

Durable, versatile and lightweight tools that can be used for Assembly, Maintenance and Servicing in any engineering or manufacturing environment.

Pro 450 and 1350 models come with T-Bars as standard to assist with higher torque.

Comprehensive range of Accessories, Bits and Blades. See pages 88-89.

ESD Preset Torque Screwdrivers
Torque range from 0.05 to 13.5 N.m

Preset Torque Application Screwdrivers for electronic component assembly

The ESD Preset Torque Screwdriver range is ideal for safe electronic component assembly as these tools are EPA compliant.

Tools that complement our traditional accuracy, durability and quality with the benefits of a moulded plastic body and enhanced ergonomic design.

ESD 450 and 1350 models come with T-Bars as standard to assist with higher torque.

To allow for customisation and clear identification interchangeable coloured end caps are available in packs of four (Order Code: 065800).
